Mr. Maury Lynch
Program Director
Radio Station WHRB
Cambridge, Mass.

Dear Maury:

This might be a bit premature, but I have been contacting some of the other Ivy members as to the discussion we had last Spring on the possibility of exchanging transcribed interviews. I figured I might remind you while I was at it.

We are making preparations to get Herman Hickman and Levi Jackson on three broadcasts before each of the Dartmouth, Princeton, and Harvard games. It might not be possible to get those two every time, as members of the press are constantly on their necks, but we shall try.

These will be transcribed early in the week of the games, and will be of such duration as each participating station desires. WYBC would like to use the ET's it receives as fifteen minute programs Friday nights. Unfortunately for this idea under discussion, our regular interview program comes early in the week, making any incorporation of programs impossible.

I shall be looking forward to hearing your ideas on this.

Cordially yours,

Howard Eaton, Jr.
Ass't. Program Director
